1. A Plan to Determine How to Sustain Physical Activity Programs in Faith Based Organizations

Masters' Thesis Committees- Chair

1. Ashley Withers, April 2009.

Title: Prospective analyses of changes in psychosocial variables and physical activity among facility-dwelling older adults.

Ms. Withers examined the impact of an intervention on the physical activity of older adults.

2. Tracy Hoos, September 2009.

Title: The association of environmental perceptions on intended park use among adult Latinas in Chula Vista.

Ms. Hoos examined the influence of park characteristics on the intention to use a park.

3. Lona Cavallera, May 2010.

Family History of Breast Cancer and Cancer Worry as Predictors of Mammography Screening in Hispanic American Women.

Ms. Cavallera examined psychosocial correlates of perceived cancer risk.

4. Alicia Voorhees, May 2010.

The association between family level correlates and health practices in churchgoing Latinos.

Ms. Voorhees examined the impact of advocacy and family level factors on Latinos health practices.

5. Stephanie Escobar, May, 2011.

Assessing the influence of a Latino faith-based program on the health practices of congregants, youth leaders, and organization.

Ms. Escobar evaluated the influence of a community based program on the health habits of youth (ages 12-18)

6. Shana Wright, April 2012.

Title: Quality of life in obese adolescents: The role of individual and environmental variables.

Ms. Wright used baseline data from an intervention study that aimed to reduce the excessive weight among youth.

7. Sarah Hardin, July 2012

Title: Development and exploratory factor analysis of an instrument to assess religiosity and health in a Latina population

Ms. Hardin used qualitative and quantitative data to understand the factor structure of a religiosity scale.

8. Rachel Mintle, Dec 2012.

Title: Hypertension risk factors and physical activity in Latinas

Ms. Mintle used data from the San Diego Prevention Research Center to evaluate correlates of hypertension and physical activity among a sample of adult Latinas.

9. Megan Beard, April 2013.

Title: Determinants of implementation effectiveness in a physical activity program for church going Latino women.

Ms. Beard conducted interviews with church leaders on their attitudes of the physical activity intervention.

10. Jaclyn Goldberg, May 2013.

Title: The maintenance and role of arthritis related exercise self-efficacy in older adults.

- Ms. Goldberg collected data from older adults participating in a physical activity intervention.
11. Lanny Mommsen, May 2013
Title: Effects of number of children in a household on the nutritional intake of Latino women
Ms. Mommsen used baseline data from an intervention promoting healthy eating among Latino families.
 12. Hope Velarde, September 2013
Title: The role of social support in a chronic disease patient navigation program among a Latino/Hispanic and Somali Refugee Population
Ms. Velarde examined the impact of a patient navigator program on participants' health practices (e.g., fruits and vegetable intake)
 13. Ashley Vandezande, May, 2014
Title: Associations of levels and types of physical activity and sedentary behavior with total abdominal fat in overweight and obese adults
