

**CURRICULUM VITAE**

**Hee-Jin Jun. M.P.H., Sc.D.**

**Office Address:** San Diego State University  
Graduate School of Public Health &  
Institute for Behavioral and Community Health  
9245 Sky Park Court, Ste.224  
San Diego, CA 92123

**Work Phone:** (339) 368-0406

**Work Email:** hjun@sdsu.edu

**Work Fax:** (619) 594-1462

**Education**

Postdoctoral Research Fellow, Channing Division of Network Medicine (Rosalind J. Wright, MD),  
*10/2002-9/2005*

Brigham and Women's Hospital/Harvard Medical School, Boston, MA

Postdoctoral Research Fellow, Department of Social and Behavioral Science (Dolores Acevedo-  
Garcia, PhD), *9/2002-8/2005*

Harvard T.H. Chan School of Public Health, Boston, MA

Sc.D., Social Epidemiology (Ichiro Kawachi, Advisor), *10/2002*

Harvard T.H. Chan School of Public Health, Boston, MA

M.P.H., Medical Sociology, *2/1993*

Seoul National University School of Public Health, Seoul, Republic of Korea

B.A., Major in Sociology and minor in History, *1983*

Ewha Woman's University, Seoul, Republic of Korea

**Professional Positions**

**Academic Positions**

Investigator/Adjunct Assistant Professor, *2014-Present*

San Diego State University Research Foundation/Graduate School of Public Health, Division  
of Health Promotion and Behavioral Science, San Diego State University, San Diego, CA

Associate Epidemiologist/Instructor of Medicine, *2008-2012*

Channing Division of Network Medicine, Brigham and Woman's Health/Harvard Medical  
School, Boston, MA

Research Associate, 2012-2015

Channing Division of Network Medicine, Brigham and Woman's Health/Harvard Medical School, Boston, MA

Graduate Student Researcher, *1998-2002*

Department of Social and Behavioral Science, Harvard T.H.Chan School of Public Health, Boston, MA

### **Affiliated Institution Positions**

Core Investigator, *2015-Present*

Center for Research on Sexuality and Sexual Health, San Diego State University Research Foundation

Affiliated Investigator, *2014-Present*

Institute for Behavioral and Community Health (IBACH), San Diego State University Research Foundation

Associate Epidemiologist, *2008-2012*

Channing Division of Network Medicine, Brigham and Women's Hospital, Boston, MA

Research Associate, *2005-2008*

Department of Social and Behavioral Science, Harvard T.H.Chan School of Public Health, Boston, MA

Postdoctoral Fellow, *2002-2005*

Channing Division of Network Medicine, Brigham and Women's Hospital, Boston, MA

Postdoctoral Fellow, *2005-2005*

Department of Social and Behavioral Science, Harvard T.H.Chan School of Public Health, Boston, MA

### **Honors**

School of Public Health Scholarship, *1998-2000*

Harvard T.H.Chan School of Public Health, Boston, MA

School of Public Health Scholarship, *1991-1993*

Seoul National University, School of Public Health, Seoul, Republic of Korea

### **Professional Growth**

#### **Professional Societies**

*1999-Present* American Public Health Association

*2002-Present* Society for Epidemiologic Research

#### **Editorial Activities**

*Ad Hoc Reviewer*

Annals of Epidemiology

American Journal of Public Health  
Cancer Causes and Control

Drug and Alcohol Dependence  
Journal of Adolescent Health  
Journal of Epidemiology and Community Health  
Nicotine & Tobacco Research  
Social Science and Medicine  
Public Health Nutrition  
Women's Health Issues  
Lesbian Health Fund grant review

### **Funded and Unfunded Research Projects**

#### ***Current***

**2018-2023** SDSU HealthLINK Center for Transdisciplinary Health Disparities Research  
U54 MD012397-01A1, NIH/NIMHD (Ayala/Wells, PI)

Co-Investigator

The goal of the SDSU HealthLINK Center for Transdisciplinary Health Disparities Research is to enhance capacity and improve infrastructure at SDSU and its partner organizations to advance minority health and health disparities research among racially/ethnically diverse, sexual and gender minority, and lower-income populations using a community-engaged transdisciplinary research approach.

**2017-2022** A brief, peer co-led, group-based eating disorder prevention program for sexual minority young adult men

N.I.H., 5R01MD012698 (Blashill, PI)

Co-Investigator

Randomized controlled trial to test the efficacy of the PRIDE Body Project compared to a time- and attention-matched media advocacy condition to reduce and prevent eating disorders symptoms and onset in young adult men who are gay or bisexual.

#### ***Pending***

**2019-2020** Real-time Assessment of Minority Stress and Physiological, Psychological, and Behavioral Responses among SGM Young Adults

Pilot award under Grant 5U54MD012397-02

Primary-Investigator

Longitudinal study of women to examine sexual-orientation disparities in tobacco-related health conditions and diseases with 30 years of national data and estimate social stigma related to being lesbian or bisexual (LB) contributes to LB women's disparities in cigarette smoking, exposure to secondhand cigarette smoke, and risk for developing tobacco-related health conditions and disease.

#### ***Past***

**2013-2018** Substance Disorders, Substance Use Treatment, and Sexual Orientation in Youth  
N.I.H., R01DA033974 (Dr. Corliss, PI)

Co-Investigator

The goals of this mixed methods study are to advance understanding of: 1) the extent to which substance disorders disproportionately impact sexual-minority youth, 2) causal mechanisms contributing to sexual-orientation-based disparities, 3) specific barriers sexual-minority youth face receiving needed treatment, and 4) effective treatment strategies in this population.

**2014-2017** Type 2 Diabetes and Sexual Orientation Disparities in Women

N.I.H., R01DK099360 (Dr. Corliss, PI)

Co-Investigator.

Epidemiologic study of sexual orientation disparities in type 2 diabetes and related risk factors in women participating in the Nurses' Health Study II cohort.

**2011-2016** Sexual Orientation and Obesity: Test of a Gendered Biopsychosocial Model

N.I.H., R01HD066963 (Austin, PI)

Co-Investigator

Epidemiologic study to test a gendered biopsychosocial model to explain sexual orientation disparities in obesity using prospective, repeated measures survey data and also biological data from three national youth cohorts.

**2013-2015** Imperial County Childhood Obesity Prevention

CDC. U18DP003377-01 (Ayala, PI)

Co-Investigator

The major goal of this demonstration study is to test a multi-level, multi-sector intervention to prevent and control childhood obesity.

**2013-2015** Introducing Child Menus in Restaurants to Improve Access to Healthier Foods

N.I.H., R21 HD071324 (Ayala, PI)

Co-Investigator

This study proposes to change the restaurant food environment by modifying what is offered to children and promoting these changes through a marketing campaign and employees.

**2007-2012** Violence, Genes and Cardiovascular Events in Women

N.I.H., 5R01HL081557-03 (Rich-Edwards, PI)

Co-Investigator

We proposed to examine types of abuse and life stages at abuse as predictors of incident hypertension, hypercholesterolemia, diabetes, and cardiovascular disease events in a prospective cohort of 68,518 women who answered a detailed lifetime abuse questionnaire in 2001 in the NHSII.

**2006-2011** Impact of Violence on Obesity and Reproductive Axes in Youth

N.I.H., 5R01HL081557 (Wright, PI)

Co-Investigator

We proposed to measure family violence exposure in a sub-cohort of adolescents and young adults participating in the Growing Up Today Study (GUTS). In addition, salivary cortisol rhythms were examined in relation to history of violence exposure and as a mediator between violence exposure and the proposed outcomes in a subsample ( $n = 1200$ ).

**2010-2011** Social Determinants of Adverse Health Outcomes in Lesbian, Gay and Bisexual Youth: A Prospective Study of U.S. Adolescents

Robert Wood Johnson Foundation Health & Society Scholars Seed Grant (Hatzenbuehler, PI [Columbia-Prime])

Principal Investigator. (BWH-sub)

We proposed to examine whether lesbian, gay and bisexual (LGB) adolescents living in environments that are more hostile to sexual minorities would have greater increases in tobacco/alcohol use and depressive symptoms, compared to LGB adolescents living in more supportive environments

**2009-2011** Developmental Origins of BMI Trajectory among Adolescents

N.I.H., R03 HD060202-02

PI ()

We proposed to examine the influence of prenatal and postnatal factors on BMI trajectory among youth transitioning from late childhood and adolescence into early adulthood. Given that obesity in childhood and adolescence increases risk for obesity in adulthood, research aimed at enhancing our understanding of potentially modifiable risk factors for an elevated BMI trajectory is important.

**2007-2011** Breast and Colon Cancer in Lesbian and Bisexual Women: A Prospective Study.

A.C.S., RSGT-07-172-04-CPPB (Austin, PI)

The goal of this work was to examine risk factors for breast cancer and colon cancer throughout the life course in lesbian, bisexual, and heterosexual women in the Nurses' Health Study II. In addition, we applied the Rosner-Colditz breast cancer prediction model and the Rosner-Wei colon cancer prediction model to examine sexual orientation group differences in risk.

**2007-2011** Genetic Determinants of PTSD in Women

N.I.H., 5R01MH078928 (Karestan and Wright, Co PIs)

Co-Investigator

We proposed to use the unique resource of the NHS II to conduct what promised to be the largest candidate gene association study of PTSD to date. We posited inherited vulnerability to PTSD was mediated by genetic variation in three specific neurobiological systems whose alterations were implicated in PTSD etiology: the hypothalamic-pituitary-adrenal axis, the locus coeruleus/ noradrenergic system, and the limbic-frontal neuro-circuitry of fear.

**2005-2006** The Effect of Witnessing Family Violence in Childhood on Obesity

RWJF/Harvard Center for Society & Health Grant

P.I. (\$)

We proposed to examine the impact of children's exposure to family violence, a specific chronic psychosocial stressor, on their developmental health. The main hypothesis of the study was that high-level family violence exposure (witnessing family violence) during childhood increases the risk of obesity relative to lower-level or no family violence.

**2002-2005** Poverty, Childcare Responsibility, and Women's Smoking

ASPH/American Legacy Foundation L4002-02/3 (Acevedo-Garcia, PI)

Co-Principal Investigator. (\$30,000)

The purpose of this work was (1) to analyze the relationship between poverty, childcare responsibility and women's smoking in the Tobacco Use Supplement of the Current Population Survey (TUS-CPS), 1995-1998; and (2) to analyze the contextual effect of state welfare policy, tobacco control policy, and women's status on women's smoking.

**2002-2003** Chronic Life Stress and Incident Asthma in Adult Women

N.I.H., R01 HL64108 (Wright, PI)

Co-investigator

The purpose of this work was to explore the role of stress in the expression of asthma. This was done prospectively by examining the association between a specific life stressor (i.e., intimate violence exposure) and adult-asthma among women participating in the Nurses' Health Study.
